Sustainability Goals 2025

Climate Change

Goals

0.5 Mn tCO_2e GHG emission savings in our operations from the base year 2017

Progress Status

0.325 Mn tCO_2e GHG emission savings achieved from base year 2017

65%

Key Actions:

- 40.42 MW Captive solar plant
- Turbine revamping of all 6 CPPs
- Improvement in current efficiency of cell house
- Use of Biomass in power plant (5%)
- Shifting from HSD based vehicle to Electrical Vehicle in underground Mine- - MoU with global manufacturers for BEVs
- 5 MW STG at DSC
- Energy Saving projects at all locations

Water Stewardship

Goals

5x Water positive company & achievement of 25% reduction in freshwater

Progress Status

16% reduction in freshwater consumption achieved from base year 2020

64%

Key Actions:

- Dry tailing plant at Zawar mines
- Commissioned ZLD plant at ZSD (3000 KLD) ~~and~~ CLZS (600 KLD)
- Increase use of Udaipur STP treated water
- Smart real-time monitoring system for freshwater intake and distribution at DSC
- 8.7 MCM/Annum groundwater recharge potential intervention at RAM

Circular Economy

Goals

3x Increase in gainful utilization of smelting process waste

Progress Status

185021 MT utilization of smelting process waste from base year 2020

Key Actions:

- 100% Jarosite from Debari smelter being dispatched to the cement industry

Biodiversity Conservation

Goals

- Protect and Enhance Biodiversity throughout the life cycle.
- Achieve No Net Deforestation through compensatory afforestation whenever applicable in mining sites, throughout the life cycle.

Progress Status

- Engagement with IUCN to revise BMP with an objective of NNL/NPI
- Habitat restoration with 2.4 lacs plantation (from base year 2020)

24%

Key Actions:

- HZL engaged with IUCN for 3 years for development of Biodiversity management plan focussing on No Net Loss Approach
- Pilot project on Miyawaki Afforestation
- Restoration of Jarofix Yard (6.25 hectare at CLZS)

Zero Harm

Goals

Zero work-related fatalities and 50% reduction in TRIFR

Progress Status

4 fatalities; TRIFR- ~~2.22~~ (~~18%~~ reduction from base year 2020)

36%

Key Actions:

- High-risk manual activities identified and drive for automation initiated through TASK force
- Zone-specific zero fatality plan developed
- Second party corporate EHS audit
- Mining Mate Competency Enhancement programme
- BP safety professional's competency gap assessment
- Safety Leadership programme for foreman and senior leadership

Social Impact

Goals

Positively impacting 1 mn lives through social, economic and environmental outcomes

Progress Status

Outreach 234 villages and 1 million beneficiaries through sustained CSR initiatives & 0.4 million through COVID initiatives (100% target achieved)

100%

Key Actions:

- Registered 5 i-FPOs across 5 districts
- 7,555 female calves born, creating ₹370 mn asset value
- Enhancing skills & livelihood of women & youth, covering 30k+ beneficiaries
- Ensured one Mobile Health Van at each location, covering 196 villages; Telemedicine introduced at 2 locations

Diversity in Workforce

Goals

Key Actions:

- 27.4% women - New hires
- Rolled out various women professionals development programmes (SHE Lead, Ambavgarh Dialogue etc.)
- First member from LGBTQ community onboarded at HZL
- Sensatization workshop for Diversity and Inclusion
- Policies on Equal Opportunity, Diversity & Inclusion, Anti-Harassment, Gender Neutral PoSH, LGBTQ+ rolled out

Responsible Sourcing

Goals

100% Responsible sourcing in the supply chain

Progress Status

1011 suppliers assessed (in past 3 years)

Key Actions:

- ESG parameters included in the onboarding questionnaire of Business Partners having a contract value over ₹100 mn
- ESG parameters included in the due diligence of Business Partners for risk identification
- Revised Supply Chain Strategy document and Sustainable Sourcing Policy in alignment with OECD compliance
- Completed red flag assessment for LME compliance
- CEO Connect with critical Business Partners on sustainability agenda
