YASIN MANSURI

Senior Chemical Engineer
+91-9723430199 | Ahmedabad Gujarat, India.
mansuriyasin21@gmail.com | https://www.linkedin.com/in/yasin-mansuri/

SUMMARY

- **Sr. Chemical Engineer** with total over **10 years** above experience in **PU/NBR Safety gloves** manufacturing Industry with outstanding leadership, Project Management skills.
- Experience in commissioning & master start Up **PU (DMF Solvent base)** and **NItrile(NBR Water base)** safety gloves dipping machine.
- Successfully start the Production of PU/Nbr Coated Synthetic Safety gloves with correct chemicals coating formulation.
- Hands on experience in commissioning & master startup of **DMF Solvent Distillation Recovery Plant** & In Utility **Effluent Treatment (ETP)**& Recycle Waste Water (ETP Treated) **3 Stage Reverse Osmosis & Evaporation** Plants.

SKILLS

- Microsoft Office
- Plant Operations
- Process Safety Management
- Team Leadership
- Lean Six Sigma
- Production Management
- Disciplined & Well Organized
- Excellent Communication

WORK EXPERIENCE

WORLD WIDE SAFETY PVT.LTD., AHMEDABAD,GUJARAT, INDIA.
Senior Chemical Engineer. **Nov 2016 – Present**

Successfully Commissioning & Master Startup of **PU (DMF Solvent base)** , **NItrile(NBR Water base),Glossy Foam,Normal Foam** safety gloves dipping machine and **DI-Methyl Formamide(DMF)** Solvent Recovery Vacuum Distillation **DCS Plant**& **192 KLD** Wastewater treated ETP Plant& 3-stage Reverse Osmosis(PLC System) Plants.

My responsibilities include:

- PU(DMF Solvent base) And Nitrile(NBR Water base) create product-feasible innovative concepts for coating safety gloves.
- Responsible for monitor day to day activities of PU and NBR chemicals batch-making process with correct formulation as per No.of synthetic gloves pairs production order.
- Mentor production team of PU and NBR Safety gloves dipping machine controller & field operators ensuring compliance with production requirements & quality management system.
- Having hands-on experience & analytical skills in evaluating the quality of incoming raw chemicals/ materials. Achieving max production & minimum rejection with minimum downtime and maximum productivity.
- Organize workflow to meet specifications & deadline.
- Make sure to fulfill requirements of EN, ASTM and ISO standards related for PPE'S. Implementation of 5S and ISO(9001,14001) to educate every employee.
- Maintain environmental rule& regulations as per government norms.

H J AROCHEM PVT. LTD., AHMEDABAD, GUJARAT
SHIFT INCHARGE PRODUCTION ENGINEER **JUNE 2013 – OCT 2016**

It is an ISO 9001:2000 Aromatic Chemical Manufacturing Company. The Company is Large Manufacturing of **Di phenyl Oxide(DPO).**Mainly used in DPO mixing with **Bipenyl** to form of **Diphyl** a heat transfer fluid, Which is used at temperatures as high as 400 ^{0}C.

My responsibilities included:

- Monitoring and controlling the production and manufacturing process of chemical products and I also took responsibility of ensuring the quality of products and taking vital steps for the production of efficient chemical products on time with minimal cost.
- Responsible day to day plant operation activity Monitoring the plant& maintaining product quality & quantity during shift.
- Continuously observe parameters from PLC Panel and achieve production with control all quality parameters.
- Monitoring Routine process parameters, troubleshooting Process change over and plant modification.
- Maintaining Plant data sheet & Quality records.
- Handling various unit processes, operations and different type of hazardous chemicals(Phenol, Mono Chloro Benzene, Caustic soda Flakes, Bi phenyl, Cuprus Oxide, HCL)
- Implement 5S & safe working environment at production area.

EDUCATION

Bachelor of Engineering in Chemical, May 2009 - May2013.
L.E.College Morbi, Gujarat, India
Gujarat Technological University
