MOHD KHUSHNAWAZ SIDDIQUI

Mobile No: 08979231009

E-mail: - mkhushnawaz@rediffmail.com

Professional Profile

Electrical Engineering Graduate with total 9.6 years' experience in the Field of Ayurveda Cosmetic, Personal care, natural dye for textile industry, Herbal products, FMCG and Sheet- metal Industry. Presently I am working with **AMA HERBAL LABORATORIES PVT. LTD. as a Asst. Manager (Maintenance).**

Areas of Expertise

- **Operation Management**
- **Manufacturing management**
- **Leadership Management**
- **Strategic Planning & Execution**
- **Production Execution & Engineering store Inventory control**
- **Environment, Health & Safety regulation practices & procedures**
- **ABP (Annual Budget Plan)**
- **Maintenance Management**
- **Audit ISO, GMP, FSSAI, ECOCERT and planning**
- **Knowledge of ERP System ,5s Asset Care Management, Cost Monitoring.**

Organisational Experience

Since Jan-2019 to till date working with AMA HERBAL LABORATORIES PVT LTD as a (Maintenance) Asst. Manager

The company is an ISO/TS-9001-2015 certified unit of AMA Group. AMA HERBAL LABORATORIES PVT. LTD. is the leading manufacturer and exporter of extract form of natural dyes for textile industry and Ayurvedic, Cosmetic, Herbal products. AMA HERBAL in house R&D is recognized by the department of Science and Industrial research (DSIR) part of ministry of Science & Technology. This company product exported to more than 38 countries across the world.

As a member of AMA Herbal leadership team accountable for plant maintenance, utility's, New project, LPG Boiler 850Kg/Hour Thermax Ltd, LPG Gas bank with 48.7kg 20Cylinder, Air Compressor (Atlas) /60 /67CFM, DG Set Kirloskar Cummins 200KVA, Transformer 250KVA ,R/O Plant 250 litre/Hour, D/M Plant with capacity 1000 litre/hour, Softener Plant 1000 litre/hour, Jar filling machine with 4 head Ashirvad Industries, Tube filling machine with capacity 60 tube/min, Shampoo packing machine with single head (UFLEX Ltd.) capacity 300 pouch/Min, Batch Coding machine with capacity 100 pouch/Min. (Markem Imaje), Bottle labelling, Sterer, Planetary Mixer, Homoginizer, Colloidal Mill (Alight Pharma Industries),Automatic Pouching machine with capacity 30 pouch/min,(Vivpack) Shirnk wrapping machine, Auto. L-Sealer machine(Fastpack),Mixer Blender 1000Kg capacity, Electric Oven with 48 tray, Band sealer machine, Tranfer Pump, Tripple roller mill, Powder filling machine(Viv pack), Evoporator, Pulverizer machine, Dust collector, Vibrator Channa, Liquid Filter machine, Mixer 1000Kg, BOD Incubator machine ambassador, Environmental test Chember ambassador, oven, Jigeer Dyeing machine(RBE), Fabric rolling machine, Padding mangle dyeing machine(RBE), Beaker shaker machine, UPS 15Kva(Numeric) Etc.

The Principal accountabilities are:

Comprehensive experience in planning and effecting maintenance schedules of various equipment and utilities in work facilities to ensure zero / minimum breakdown & maximum availability of plant & machinery increase up time and equipment reliability.

Ensure Machine availability & service level

- Managing a self-directing multi-skilled team to provide maintenance service to meet internal customer requirement.
- Ensure that all proves machinery/equipment meet the management performance requirements.
- Manage the overall preventive and corrective maintenance of all machines through effective manpower planning and organization, spare part availability and control thus ensuring optimum use of resources for high equipment reliability at the lowest cost.
- Ensure that all operation and activities meet the defined safety and quality standards.
- Lead in the practice of working safely and ensure no accidents or near misses occurs in the area of

responsibility.

. **Area of responsibility -**

- Oversee/supervise engineers, technicians, fitters to completion of the schedule preventive and corrective according to the running hrs. Maintenance.
- Handling of breakdown maintenance of plant machinery.
- Co-coordinating the execution planned preventive maintenance task to ensure equipment performs as required.
- Liaise with supply team to ensure all raw materials are delivered in timely and efficient manner.
- Reporting technical data and plant status to relevant managers and GM.
- Evaluate system performance for upgrade and capacity improvements as part of ongoing continuous improvement policy.
- Ensure that all operational maintenance is carried out and documented as specified.
- Overall responsibility for adherence to local laws, especially labor laws, pollution control laws, fire and explosives, safety, electrical installation etc.
- Expertise in installing, testing, commissioning and maintenance of electrical equipment.
- Executing cost saving and energy saving techniques/ measures and modifications to achieve substantial reduction in operation & maintenance expenditures.
- Developing vendors for spares and contractors for outside maintenance services.
- Making 100% utilization of weekly offs by proper planning, arranging external help from suppliers & contractors.

Job Activities-

- Undertaking Failure Analysis / Breakdown Analysis of Machinery, Equipment's and Utilities.
- Communicate regularly to equipment suppliers and manufactures various engineering concerns/issues such as urgent parts delivery, machine troubleshooting, request for spare quotations among others.
- Working towards achieving reduction in breakdown frequency by monitoring condition of Equipment or elements.
- Report and review performance with Team Members and relevant managers evaluating results and outlining improvements.
- Updating Daily breakdown data and continual improvement (SQDCME) in plant.
- Responsible for maintaining the Equipment log book, History card and checklist.
- Skill improvement of shift officers, technicians and operators to utilize the effective skills.
- Agree tasks and targets with Managers and make plans with Team Members for achievement

Achievements -

- Boiler project – Successfully install LPG Boiler with gas bank.
- Water Harvesting – Successfully install water harvesting plant.
- Project work for warehouse.
- Successfully install of Fully Automated line for Powder section.
- Successfully installation of LPG leakage detector with buzzer indication for safety purpose.
- Ink jet printers – Successfully Install markem imaje printer and rewinding machine.
- Air Compressor- Successfully Installation of Atlas Air Compressor.
- Automation work's – (a) All CFL and Hylogen lights replaced with LED Lights. (b) All water storage tank's installed WLC for avoid over flows & reduce water consumption and installed VFD by replacing DOL starter / Star delta starters

July – 2015 to Jan-2019 date working with Surin Automotive Pvt. Ltd. Sidkul Sitarganj (U.K) a one of the leading engineering and manufacturing companies in india operating 12 plants across of 8 cities having 5 divisions driving the growth of company. Commercial vehicle components and assemblies, TruckDriver Cabin, Heavy Vehicle, Driver cabin and Bus Driver Cabin for Ashok Leyland Ltd. Surin was judged atthe 43rd fastest growing mid-sized company in india by Inc.500. – as Maintenance Shift Engineer.

As a member of the Surin automaotive pvt.ltd. accountable for Plant maintenance, Utility's and new project, Weld Shop, operation Shop, Powder Coting line, Air Compressor- Chicago Pneumatic with capacity of 150 /189 /122 CFM , Laser cutting, Plasma cutting, LPG Burner Line, Air circuit Breakers,

Lighting System, Fabrication machines like Grinders, drill and Arc welding machins, Motors, Electric Panels, Water pumps,Air Blowers, Hoist Crans, CNC Press brakes including 300 tons Durma, 400 Tons Ermaksan with 6m bed and 450 tons with 6m bed, Roll bending maching, with size 6m size, 50 tons Amada Coma cnc turnet punch press for punching up to 9.4mm, Radial drilling and M1TR machine, Mechanical press of Seyi, Chingfong,ERFURT make ranging from 80 tons to 315 tons, Hydralic press capacity from 160 tons to 500 tons, Automated material handling conveyors, Hydra, Forklift, Spot Welding IT Guns with capacity 75KVA, Mig welding guns upto 600amp. Capacity, projection welding, shot blasting facilities of size 8m*5m*4m for tipper, trailer, concrete truck mixer, powder coating for components upto 6 meter, complete rang of tools and dies, milling machine, Colling Tower , Transformer 1250 KVA Make Transcon ,DG set – 380 /320 Kirloskar Cummins, Co2 Tank 10,000 liter capacity, step/ 5 Step ,WTP e.t.c

Job Activities-

- Undertaking Failure Analysis / Breakdown Analysis of Machinery, Equipment's and Utilities.
- Shift handling.
- Machine troubleshooting, request for spare parts.
- Calculation of MTTR, MTBF Diesel, electricity & water consumption.
- Shift handling as leader for Production, operation and maintenance wage team. Guiding the operators, technicians and electricians.
- Preventive Maintenance - PM Planning, completion, timely updating PM check sheet.
- Planned Maintenance - Executing planned maintenance for Electrical, Mechanical & Electronics activities.
- Electrical, Mechanical & Electronics spare part planning for all machines.
- Preventive & Breakdown maintenance Of HT/LT panel, starter panels, Distribution panel, Capacitor panel, mcb, mccb, EPBX, Earthing, drive, contector, oven, Welding machines, Grinders, drill machines, IT Guns, relay, motors, switch gear, lighting system, different type of instruments, Gear box, electrical and mechnical related problems.
- Man power planning in Shifts & Sunday working, Man power includes 4 no's of fitters, 3 no's of electrician, 4 no's of Semi-skilled people; Similar man power has to be distributed in 3shifts.
- Responsible for maintaining the Equipment log book, History card and checklist.
- Improve the safety environment in entire plant.
- Working towards achieving reduction in breakdown frequency by monitoring condition of Equipment or elements.
- Report and review performance with Team Members and relevant managers evaluating results and outlining improvements.
- Agree tasks and targets with Managers and make plans with Team Members for achievement.

April – 2014 to Jan-2015 at Indus tech Pvt. Ltd., Lucknow - U.P, India – as Engineer

Job Profile -

- Identify training needs of team members and ensure competency levels enhanced.
- Executing equipment modification & improvement projects.
- Effective communicator with strong leadership, problem solving skill, negotiation skills and the capacity to work under pressure situations.
- Motivate, facilitate, support and direct team to achieve tasks defined and measurable performance parameters.
- Agree tasks and targets with Managers and make plans with Team Members for achievement.
- Responsible for preparation of documents

Utility & Maintenance: -

- Responsibility for total maintenance of PET Department of all Equipment like Air Compressor, DG Set,Chilling unit, All Pumps, Gear Boxes, Bottling machineries, Conveyor, Filler, Panel etc.
- Development of the maintenance schedule, sop and checklist of the various equipment under utility and production department.
- Determining material requirement, generating material specification for supplier, raising indent of the material and inspecting the purchased material against the required material specifications.
- Effectuating predictive, preventive & breakdown maintenance schedules of plant assets; conducting periodic checks to ensure performance of various equipment's.
- Scheduling and planning predictive, preventive and breakdown maintenance jobs with key focus on spares availability and root cause analysis. Regular & daily reporting to Management authority.
- Preparing maintenance plans/schedules monthly & six monthly for reducing machinery downtime to minimum for ensuring smooth production.
- Preparing Why -Why analysis, 5W-1H analysis of critical and major breakdowns for systematic root cause

detection of problems and improve the performance of the machine. .

Industrial Training

April 2012 to March 2013 at UP power corporation., Lucknow (U.P.)

Academic Synopsis

- **B.TECH. (Electrical Engineering.)** from Kalinga University, Raipur approved by AICTE, (Chhattisgarh), India in year 2017 **with First class.**
- **Diploma (Electronis Engineering)** from Govt. Polytechnic Mahoba, (U.P) in year 2011 **with First Class**.
- 12th (U.P.Board) from Lucknow public Inter College, Allahabad U.P. (2005, **First class**)
- 10th (U.P.Board) from Lucknow Public Inter College, Allahabad U.P. (2003, **First Class**)
- Diploma in Computer programming and Management System. (2008, First Class)

IT Skills: - MS Office, Excel, Power Point, Outlook, ERP .

Expected CTC: - negotiable

Personal Details

Father Name: - Mr. Mohd Ahmed Siddiqui

Mother Name: - Mrs. Shaista Siddiqui
