DEVENDRA KUMAR SINGH
Electrical Engineer
Contact: +91-8181839079
E-Mail: devendra.knp95@gmail.com
LinkedIn: www.linkedin.com/in/contactdevendrasingh

➢ Profile Summery

- Self-Motivated, adaptable, passionate, hardworking and a team player professional. As an Electrical Engineer with 5 years of industrial experience, I have developed my skills in Design & Engineering of Electrical panels, Maintenance & operations of Complex electrical systems, electrical drawings, AutoCAD, E-Plan Electric, SAP-PM module, Electrical Machines. Committed to delivering high-quality work and exceeding expectations in my previous roles. Excellent communication and interpersonal skills, with a demonstrated ability to collaborate effectively with cross-functional teams. Seeking a challenging role where my technical experience can contribute to the growth and success of the organization.

➢ Work Experience

1. Electrical Engineer (Maintenance) — RSPL Limited
17/04/2023 – 16/10/2023 — **Kanpur, UP**

- Maintenance & operation of machineries, handling of complex electrical systems with safety standards, LOTO, Work Permits.
- Operation & maintenance of Quazi Eng. make Soap stamping machine, Soap bar cutter.
- Diesel Generator maintenance (725kva Caterpillar make, 500kva Cummins make)
- Implementing predictive/preventive/shutdown maintenance schedule for machinery.
- Schedule maintenance for critical machineries (motors, drives, transformers)
- Experience in handling detergent cake plant, detergent powder plant.
- Maintenance of LT motors (Induction motors)
- MIS report, Energy consumption report, Manpower Handling
- Material handling and creating orders using SAP PM module.
- Handling Spare parts, switchgear, accessories for electrical panels.

2. Asst. Electrical Panel Designer (Design & Engineering) — Excel Control Systems
23/05/2019 – 15/12/2022 — **Kanpur, UP**

- Design & Development of LT & HT electrical panels, L&T Enersys-i as per (IEC-61439)
- Design & drafting of G.A. (General Arrangement), wiring/control circuits, SLD, Schematics
- Designing of PCC panels for Power distribution, MCC panels for motor control panels.
- Experience in wiring Star/delta, DOL, PLC, VFD, AMF, APFC, and VCB Panels.
- Preparation of Bill of material, technical specification of electrical panels

- Switchgear Selection, Cable Sizing for LT motor as per the load requirement.
- Technical support to Production team, installation team & service engineer
- Preparing control schemes for industrial automation & control schematics
- Busbar Sizing as per the load & customer requirement.

3. Graduate Eng. Trainee (Electrical Dept.) **Dhampur Sugar Mills Ltd.**
15/02/2018 – 03/03/2019 **Moradabad, UP**

- Maintenance & operation of machineries, handling of complex electrical systems with safety standards, LOTO, Work Permits.
- Schedule maintenance for critical machineries (motors, drives, transformers, DG)
- Assisting in electrical maintenance of electrical machineries.
- Report preparation for electrical breakdown.
- Experience in handling operations of Mill house, boiling plant, ETP & distillery plant.
- Team management, manpower handling.
- MIS report, Energy consumption report.
- 5S activity,TPM, Kaizen

➢ Skills

- E Plan Electric P8 (Familiar with the tool)
- Autocad 2d
- SAP PM
- Microsoft office
- Switchgear selection
- Electrical load calculation
- Preparing electrical interlocking
- Designing of Schematic & SLDs
- Electrical Fault Troubleshooting
- Electrical Panel & machine maintenance
- VFDs ,Soft Starters, MCC,PCC,PLC Panels
- Industrial Automation & Control Techniques
- Communication skills, Team handling, Critical thinking

➢ Industrial Trainings

- Organization: LARSEN & TOUBRO LTD. (L&T), Lucknow
  Description: Designing of L.V. Switchboard, Selection of VFDs & Soft Starters, Programming of VFDs & Soft Starters.
- Organization: SCHNEIDER ELECTRIC, Kanpur
  Description: HMI Parameter Setup, Application & use of Programmable based Thyristors.

- Organization: DSM Group, Moradabad
  Description: 5S activity, Shop Floor activities, Safety techniques at work place, Root cause Analysis, Daily progress Report, Maintenance Techniques, TPM

- Organization: Thermal Power Plant U.P.R.V.U.N. Ltd., Panki, Kanpur
  Description: Electricity generation, transmission & distribution, Primary & secondary T&D, SF6 CB, Interrupters, V.C.B., wave trap, H.V. line equipment's.

- Organization: IQRA Software Technologies Pvt. Ltd., Kanpur
  Description: Matlab, Simulink, Modelling of System

➢ Academic detail

- B.Tech. in Electrical Engineering from Maharana Pratap Engineering College in 2017, scored 76% with Honours.

➢ Academic Projects

- ProjectTitle: Speed Control of DC Motor in Matlab/SIMULINK.
  Description: Simulated the characteristics of DC Motor below/above base speed.

- ProjectTitle: Power Electronics and Microcontroller Based Speed, feedback and direction Control of DC Motor.
  Description: DC motor speed and direction control using thyristors & PWM techniques.

➢ Extracurricular activities

Showcased excellent aptitude in performing following activities:

- Focused Improvement and development techniques and implementing same in the plant.
- Completed Project work of designing electrical panel for Jal Nigam STPs.
- Project handling in various challenging and dynamic work environment.
- Provided training on Safety techniques at work place, 5S, TPM
- Delivered Exceptional, quality work in my previous roles.
- Team Co-ordinator in T.P.M. activities
- T.P.M. Implementation Techniques.
- Team handling, Team Player

➢ Personal Deatils

- Date of birth : 15th August 1995
- Address : LIG 41, Shatabdi nagar Phase-5, Panki, Kanpur, Uttar pradesh

➢ Declaration

I hereby declare that the above mentioned information given by me is true to best of knowledge and belief.

Date: Yours faithfully,

Place: (Devendra Kumar Singh)
