Experience

Halla Group | Sales engineer **03\2022 – 04\2024**

- **Provided technical solutions to meet client requirements and expectations.**
- **Built strong relationships to enhance customer satisfaction and retention.**
- **Conducted product demonstrations and presentations for prospective clients.**
- **Researched market trends to identify and pursue sales opportunities.**
- **Prepared tailored proposals and cost estimates for client projects.**
- **Consistently met or exceeded assigned sales targets and goals.**
- **Relayed customer feedback to improve products and services offered.**
- **Collaborated with internal teams to ensure timely product delivery.**
- **Trained customers on proper product usage and maintenance practices.**
- **Generated detailed sales reports and forecasts for management review.**

The Sudanese Japanese Mining | process engineer **01\2021 – 02/2022**

- **Optimized gold recovery through process analysis and performance improvement initiatives.**
- **Monitored plant operations and analyzed data to address inefficiencies.**
- **Resolved technical issues in the CIL circuit, ensuring minimal downtime.**
- **Maintained critical process parameters and ensured accurate reagent dosing.**
- **Collaborated with maintenance teams to ensure reliable equipment operation.**
- **Enforced safety and environmental compliance in all plant operations.**
- **Implemented process improvements to enhance efficiency and reduce costs.**
- **Trained staff on operational procedures and best practices in CIL.**
- **Prepared reports and communicated findings to cross-functional teams.**
- **Applied innovative methods to improve recovery rates and operational performance.**

4o

Part-time work, training and courses

Alhsour Mining Graduate Program | Process engineer **07\2020 – 12\2020**

- **Assisted in process monitoring and optimization.**
- **Collaborated with engineers on data analysis.**
- **Shadowed engineers, troubleshooting operational issues.**
- **Attended skill-enhancing workshops.**
- **Implemented environmental and safety measures (Identified and mitigated risks, provided protective equipment and training, developed safety programs , installed air quality monitors, implemented water recycling, engaged with communities) .**

Olympic Factory | Process engineer intern 01\2020 – 06\2020

- **Analyzed processes and data to enhance efficiency.**
- **Provided technical support to maintain smooth operations.**
- **Enforced strict safety protocols for compliance.**
- **Conducted regular safety assessments and risk analyses for proactive risk mitigation.**

EL-SHARQ TV | Video Editor 01\2022 – 03\2022

- **Edited visually appealing videos for El-SHARQ TV's social media.**
- **Maintained brand consistency.**
- **Collaborated on content scheduling with social media team.**

Education

University of Khartoum , Bachelor’s in chemical engineering 2020

Final Research Project: Production Balanites Aegyptiaca OilPlant.

Semi-Final Research Project: Characterization of Chemical and Physical Properties of Honeybee and its Standard Tests.

NEBOCH IGC Candidate 2024

National Examination Board in Occupational Safety and Health International General Certificate

Skills & abilities

- **Process management**
- **Problem-Solving and Maintenance Optimization**
- **Communication Skills**
- **Team Leadership and Training**
- **Chemical and Process Monitoring**
- **Analytical Skills**
- **Program Development**
- **Sales and Client Relations**
- **Event Coordination**
- **Microsoft Office - Excel - Adobe Premiere Pro - Adobe Photoshop**

Languages

- **English Intermediate**
- **Arabic Native**
